To Nimesh Sangani <Nimesh.Sangani@fcc.gov>

Good morning

I have paid the \$140 fee. Please see below.

For your questions:

1. Please provide Stop Buzzer Point of Contact Information (Name and Direct Telephone Number)

I uploaded an attachment with the primary and secondary buzzer off info. I'll check and ensure it was uploaded. For future reference, is there is location within the OET applications to include this information?

2. What is the exact application for the frequency request in this STA?

Please clarify. I assume you mean what do we need this for?? We have a new radar designed to detect and track drones for the counter UAS mission. Army will be conducting a series of tests at Camp Grayling, MI beginning JUL 2026 through end of year. The Ridgley location is close to our home office and we intend to use the site to conduct factory tests and calibration of the radar. Hours of operations are M-F 0600-1800 for both sites, anticipated use (active emission) is approximately 3-7 days per month.

3. Will you conduct Jamming, Spoofing, and/or Electronic Attack under this STA request? (No – Radar operations only)

Please advise where on the application I should enter the clarifying remarks, or if I should save this email and include as an attachment.

Thank You
Dean

Hi Dean,

I sent you few questions regarding this STA request. Please address those ASAP.

V/r,
Nimesh

Good morning. Hope you had a very happy holiday weekend.

We had an urgent request from US Army to participate in a Counter UAS event at Camp Grayling, MI. Apologies for such short notice. Any assistance your office may be able to conduct is greatly appreciated.

I have submitted a STA for this location for the event, as well as our local MD range for pre-test and prep. Attached to the submission is our Stop Buzzer POC.

Please let us know if you have any additional questions and we appreciate any assistance you have to offer for rapid approvals.

Thank you
Dean
