

June 25, 2026

In Application of: EMG USA, LLC.

To Operate in the 2220-2290 MHz and 3350-3380MHz Telemetry Band to Provide TV Coverage in Greensboro, NC.

Stop Buzzer is Stephen Tobias, 410-564-9291.

ATTN.: Microwave Branch

EMG USA hereby requests Special Temporary Authority (STA) to operate in the 2220-2290MHz and 3350-3380 MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. EMG USA requests that the Commission grant temporary authority to operate on three 10 MHz wide channels in the 2225, 2245, 2265 and 2285MHz and two 10 MHz wide channels 3355 and 3375 MHz with a 10MHz bandwidth on 07/23/2026 until 07/25/2026 with intermittent usage.

As explained below, EMG USA is filing an STA request for the Live Television Transmission of Mav TV's coverage of the GAA Auto Auction live event. EMG USA submits that there are extraordinary circumstances warranting a grant of the STA request. Live Mobile Group has contracted EMG USA to provide the necessary microwave for the Live Transmission of this event. Due to the extreme frequency congestion in the Greensboro, NC area, coupled with the added congestion from traditional television and news coverage of the special event, EMG USA requests the use of channels in the 2220-2290 MHz and 3350-3380 MHz telemetry band. EMG USA certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations. Stop Buzzer is Stephen Tobias, 410-564-9291.

Grant of the instant request for STA in the 2220-2290 MHz and 3350-3380 MHz Band would serve the public interest by enabling EMG USA to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Type and Manufacturer of Equipment: Vislink Hcam

Power Output: 100mw ERP: 100mW Emission: 10M0X7F

Frequencies:

2225.0MHz, 10M0X7F@100mW

2245.0MHz, 10M0X7F@100mW

2265.0MHz, 10M0X7F@100mW

2285.0MHz, 10M0X7F@100mW

3355.0MHz, 10M0X7F@100mW

3375.0MHz, 10M0X7F@100mW

Area of Operation: .2Km around venue.

Coordinates:

The Automobile Palace

07.23-25.2026

N 36 03 58

Greensboro, NC

W 79 52 14

Antenna Height: 6' AGL Antenna: 0dB Omni Antenna Gain: 0dBi

Dates of Operation: July 23, 2026 until July 25, 2026 (Intermittent Usage during these days)

EMG USA requests an STA to operate on the above-referenced frequency for a period not to exceed three days. No application for regular authorization will subsequently be filed. EMG

USA certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C §853(a).

Should you have any questions regarding this matter, please contact, Stephen Tobias, by telephone (410) 564-9291

Respectfully submitted,

By: Stephen Tobias
