In Application of: EMG USA, LLC To Operate in the 2235-2255 MHz, 2265-2285 MHz, 3335-3355 and 3365-3385MHz Telemetry Bands to Provide TV Coverage in Canton, OH. Stop Buzzer: Stephen Tobias (410)564-9291

ATTN.: Microwave Branch

EMG USA hereby requests Special Temporary Authority (STA) to operate in the 2235-2255 MHz, 2265-2285 MHz, 3335-3355 and 3365-3385MHz Telemetry Bands pursuant to Section 21.25 of the Commission's Rules. EMG USA requests that the Commission grant it temporary authority to operate on the frequencies centered at 2245MHz, 2275MHz, 3345MHz and 3365MHz with an 20MHz bandwidth on 8/6/2026 with intermittent usage.

As explained below, EMG USA is filing an STA request for the Live Television Transmission of NBC Sport's coverage of a NFL Preseason Hall of Fame game 2026. EMG USA submits that there are extraordinary circumstances warranting a grant of the STA request. NBC Sports has contracted EMG USA to provide the necessary microwave for the Live Transmission of this event. Due to the extreme frequency congestion in the Canton, OH area, coupled with the added congestion from traditional television and news coverage of the special event, EMG USA requests the use of channels in 2235-2255 MHz, 2265-2285 MHz, 3335-3355 and 3365-3385MHz telemetry band. EMG USA certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2235-2255 MHz, 2265-2285 MHz, 3335-3355 and 3365-3385MHz Bands would serve the public interest by enabling EMG USA to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company. Stop Buzzer: Stephen Tobias (410)564-9291

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Type and Manufacturer of Equipment: Livetool Fusion

Power Output: 100mw ERP: 100mW Emission: 10M0X7F

Frequencies:

2245.0MHz, 20M0X7F@100mW

2275.0MHz, 20M0X7F@100mW

3345.0MHz, 20M0X7F@100mW

3375.0MHz, 20M0X7F@100mW

Area of Operation: .2Km around venue.

Coordinates:

Tom Benson Hall of Fame Stadium

08.06.2026

N 40 49 10

Canton, OH

W 81 23 55

Antenna Height: 6' AGL Antenna: 0dB Omni Antenna Gain: 0dBi

Dates of Operation: August 6, 2026 (Intermittent Usage during this day)

EMG USA requests an STA to operate on the above-referenced frequency for a period not to exceed one day. No application for regular authorization will subsequently be filed. EMG

USA certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C §853(a).
