

September 17, 2026

In Application of: EMG USA, LLC.

To Operate in the 2280-2290 and 3380-3890 MHz Telemetry Band to Provide TV Coverage in Nashville, TN.

ATTN.: Microwave Branch

EMG USA hereby requests Special Temporary Authority (STA) to operate in the 2280-2290MHz and 3380-3390MHz Telemetry Band pursuant to Section 21.25 of the Commission's Rules. EMG USA requests that the Commission grants it temporary authority to operate on the frequencies centered at 2285MHz and 3385MHz with a 10MHz bandwidth on 10/6/2026 with intermittent usage. As explained below, EMG USA is filing an STA request for the Live Television Transmission of TNDV's coverage of the Dove Awards. EMG USA submits that there are extraordinary circumstances warranting a grant of the STA request. TNDV has contracted EMG USA to provide the necessary microwave for the Live Transmission of this event. Due to the extreme frequency congestion in the Nashville, TN area, coupled with the added congestion from traditional television and news coverage of the special event, EMG USA requests the use of channels in the 2280-2290 and 3380-3390MHz telemetry band. EMG USA certifies that the operation of the requested channels for the purposes specified herein will not cause interference to any established stations.

Grant of the instant request for STA in the 2200 and 3300 MHz Band would serve the public interest by enabling EMG USA to supply the requested remote video coverage for this event. The proposed service would enhance coverage of the event by providing on the spot pictures from mobile locations that would not otherwise be available to the Production Company.

In accordance with Section 74.633 of the Commission's Rules, the following is provided:

Type and Manufacturer of Equipment: Vislink Hcam

Power Output: 100mw ERP: 100mW Emission: 10M0X7F Frequencies:

2285.0MHz, 10M0X7F@100mW

3385.0MHz, 10M0X7F@100mW

Area of Operation: ,2Km around venue. Coordinates:

Bridgestone Arena

10.06.2026

N 36 09 33

Nashville, TN

W 86 46 43

Antenna Height: 6' AGL Antenna: 0dB Omni Antenna Gain: 0dBi

Dates of Operation: October 6, 2026 (Intermittent Usage during this day)

EMG USA requests an STA to operate on the above-referenced frequency for a period not to exceed one day. No application for regular authorization will subsequently be filed. EMG

USA certifies that no party to the application is subject to a denial of federal benefits pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C §853(a).
