Suite 230
Washington, D.C. 20554

Dear Mr. Young:

In reference to the Entergy Operations, Inc. application to license a NERA Saturn satellite communications unit and our telephone conversation of December 23, 1996, the following information is provided with regard to errors in the license application:

1. Entergy Operations requests to license one unit for its Waterford 3 site, not ten.
2. Item 21 on page 4 of FCC Form 442, Applicant Anti-Drug Abuse Certification, should have been marked "yes".

I apologize for any inconvenience these errors in our application might have caused you and hope this letter will serve to complete the process to your satisfaction.

Thank you for calling this problem to our attention and offering your assistance in resolving it.

Very truly yours,

James J. Lewis
Emergency Planning Manager

This letter is to inform you the Entergy Operations, Inc. intends to commission Nera Saturn MiniPhone and is applying for FCC Licensing.

Entergy Operations, Inc. is a utility company that operates nuclear power facilities. We intend to utilize the Saturn MiniPhone as a means of back-up emergency communications in the event of natural disaster.

Sincerely yours,

James J. Lewis
Emergency Planning Manager
