Application Narrative for Proposed Equipment

Proposed Program

Equipment Share is proposing GPS within their facilities for testing purposes.

Objectives

We seek to accomplish the following objectives:

1. Illumination of part of the facilities at the various locations designated on our application with a GPS signal to allow for the testing and experimentation indoors for continued exploration of utilizing GPS technologies within our construction equipment to provide innovative applications and continue to provide safe products.
2. Further design, development and enhancement of existing GPS applications to provide greater efficiency and more effective means of utilizing GPS derived information.
