

Exhibit 1

Item 4:

Frequencies: see attachment (new frequencies being added pages 6 & 7)

Emission Designator: 15KOF1D/F2B/16KOF3E/F2D/20KOF1E/36KOF3E

15KOF2D/F1D/F1E/11KOF3E/F1D

|                      |                   |                                 |
|----------------------|-------------------|---------------------------------|
| Frequency Tolerance: | 25.22 - 49.04 MHz | .002%                           |
|                      | 72-150 MHz        | 0.0005%                         |
|                      | 406-490 MHz       | 0.00025% fixed; 0.0005% mobile  |
|                      | 806-892 MHz       | 0.00015% fixed; 0.00025% mobile |
|                      | 896-960 MHz       | 0.00015% fixed; 0.00015% mobile |

Authorized power (watts) see attachment (new frequencies being added pages 6 & 7)

## Exhibit 2

The purpose of this modification is to add 900 MHz to allow for broader systems evaluation of 900 MHz trunked systems.
