To Whom It May Concern:

This is to certify that:

Esoteric Networks, D/B/A WhyReboot deploys and/or manages radio frequency equipment. The RF experimentation will be conducted by following a strict Test Plan defined and approved by WhyReboot in a controlled environment.

WhyReboot will have a Project Manager in place to specifically follow the Test Plan, track results, and publish test results.

WhyReboot has extensive RF experience and expertise deploying RF networks and has a number of RF engineers on permanent staff.

For the above reasons, I believe that WhyReboot meets the Eligibility criteria for a Special Temporary Authority experimental license as set forth in the Commission Rules.

Sincerely,
