STATEMENT OF INTENDED USE OF A TRANSPORTABLE LAND-BASED INMARSAT TERMINAL

Exxon Chemical Americas, an affiliate of Exxon Communications Company, has set up a response team of personnel and equipment which will be rapidly deployed in the event of an oil or chemical related emergency. The response team will coordinate the emergency operations and will require instant and positive communications. The portable INMARSAT terminal will be used for voice and data communications from remote areas at temporary locations in Texas, Louisiana, Mississippi and Florida during the early coordination of an emergency situation.
