NAME Fail-Safe Solutions, LLC

This Special Temporary Authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This Special Temporary Authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control the Government of the United States conferred by Section 706 of the Communications Act of 1934.

Special Temporary Authority is hereby granted to operate the apparatus described below:

**Purpose Of Operation:**

The operation will include setting a signal generator at the required frequency and then testing the payloads ability to receive that frequency.

## Special Conditions:

- (1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.

Special Conditions:

- (3) Licensee must obtain consents from the Advanced Wireless Service licensees prior to accessing to 1710.2 MHz and 1747.6 MHz.
- (4) Operation is subject to prior coordinate with the local Society of Broadcast Engineer frequency coordinator and the affected Fixed Microwave Service licensees prior to accessing to 942.6 and 959.8 MHz.
- (5) The applicant must coordinate with the incumbent MAS in the 959-960 MHz band and the incumbent Advanced Wireless Services in the 1710-1755 MHz band prior to conducting the testing. The 941-944 is for fixed operation only.
