Subject: Request for Info - File # 0856-EX-CR-2025

Message:

1. What foreign countries would this experimental be broadcasting to?
FalconION is broadcasting to the UK and Japan.

2. What are the receiver sites?
The receiver sites include loop-array antennas and SDR receivers located outside of London and Tokyo.

3. Is the traffic one-way only?
Yes, the traffic is one-way only.

4. Is the company using encryption?
Yes, FalconION uses encryption as a simple randomization function for experimental data to maintain statistical integrity in the experiment and eliminate systematic bias.
