Special Conditions:

- (1) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (2) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (3) Operation is subject to prior coordinate with the local Society of Broadcast Engineer frequency coordinator and the Fixed Microwave Service licensees prior to operation in 18-20 GHz band.
- (4) FCL Tech must insure that fixed operations in the 18.6-18.8 GHz frequency band comply with the maximum conducted output power and maximum equivalent isotropic radiated power limits specified in Footnote US254.

"In the band 18.6-18.8 GHz the fixed and mobile services shall be limited to a maximum equivalent isotropic radiated power of +35 dBW and the power delivered to the antenna shall not exceed -3 dBW."

Special Conditions:

- (5) Operation in the 27.5 - 30.0 GHz, the transmitting main beam pointing antenna is limited to azimuth angles between 285 to 360 degrees and 0 degrees to 75 degrees. Also, the transmitting main beam pointing antenna is limited to an elevation angles between 0 to 70 degrees above from the horizon
- (6) Operations in the 18-20 GHz and 24.75-25.25 GHz bands, the transmitting main beam pointing antenna is limited to elevation angle between -20 to -90 degrees below the horizon.
- (7) Experimental station shall use the minimum power level necessary to establish communications links to minimize potential interference to licensed users.
- (8) No automatic renewal for this authorization.
- (9) This authorization is without prejudice to any determination that the Commission may make regarding pending or future experimental satellite earth station applications.
- (10) Operations are on a non-interference basis (NIB) and shall not cause harmful interference to, and shall not claim protection from, interference caused to it by any other lawfully operating station and it shall cease transmission(s) immediately upon notice of such interference and notify the FCC in writing.
