Subject: Request for Info - File # 0111-EX-CM-2021

---

Message:

We have a few questions/comments about the locations in question:

Guam: Where in the online application can you enter a location that is in the Eastern Hemisphere? By default, it will only allow a user to enter a location in the Western Hemisphere. This is why we provided the coordinates in the memo and submitted it as an exhibit as requested. Also, I am unsure of what tool or software your office is using but the coordinates found within the memo are placed IVO Sinajana.

Grayling Township, MI: We have made the requested changes to reflect "Grayling Township, MI" as the location with "Crawford" as the county.
