(File Number)

NAME First RF Corporation

This Special Temporary Authorization is granted upon the express condition that it may be terminated by the Commission at any time without advance notice or hearing if in its discretion the need for such action arises. Nothing contained herein shall be construed as a finding by the Commission that the authority herein granted is or will be in the public interest beyond the express terms hereof.

This Special Temporary Authorization shall not vest in the grantee any right to operate the station nor any right in the use of the frequencies designated in the authorization beyond the term hereof, nor in any other manner than authorized herein. Neither the authorization nor the right granted hereunder shall be assigned or otherwise transferred in violation of the Communications Act of 1934. This authorization is subject to the right of use of control the Government of the United States conferred by Section 706 of the Communications Act of 1934.

Special Temporary Authority is hereby granted to operate the apparatus described below:

Purpose Of Operation:

To test a communications system in the lightly regulated E-band.

Station Locations

- (1) MOBILE: County roads NNW of Erie Tower, Longmont, CO, within 16 km, centered around NL 40-06-59; WL 105-03-21
- (2) Erie (WELD), CO - NL 40-03-00; WL 105-00-14

Special Conditions:

- (1) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (2) In lieu of frequency tolerance, the occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (3) First RF Corporation must be made aware that in Boulder, CO, there is a National Science Foundation (NSF) Radio Astronomy Service operating in the 70 - 80 GHz band. The NSF will monitor their operations to ensure no interference is experienced.
- (4) First RF Corporation must successfully coordinate with the existing users prior to accessing to 71-76 GHz and 81-86 GHz.

- (5) Army concurs with the use of M377.725 and M385.1 for the purposes of this test. The user must be aware that operational use of these frequencies will not be authorized due to the bandwidth restriction in this band.
- (6) Army non-concurs with the use of M379.8 as it is a designated ATC frequency and is not supportable for any use other than ATC operations. This frequency will not be supported for operational use.
