□□□□□□Hi Linda. I looked through the databse and I don't see any microphones
in those frequency ranges. I don't see any problems with your setup. Thanks
for checking . Richard...

>>> Linda Plesnik <Plesnik@flarion.com> 02/17/03 10:01PM >>>
Richard,

Flarion Technologies has filed for an STA to demonstrate its broadband
mobile IP technology at the CTIA Wireless Show in New Orleans scheduled for
March 11-20, 2003.

The demos will be inside the Ernest Morial Convention Center and we will
also have a demo involving our COLT (Cell on Light Truck) which will be
parked in a parking lot next to the Convention Center. Flarion employs OFDM
modulation with a
1.25 MHz channel in the 747-762 MHz band with 20 watts ERP. The demos will
utilize some mobiles operating on a paired channel in the 777-792 MHz band
with 600 milliwatts ERP.

The COLT antennas are mounted on a mast extendable to 40 feet above ground
level.

The actual demos are scheduled for March 17-20. We will be arriving on
March 11th or March 12th to begin testing.

Please let me know if you have any concerns/questions regarding the demos.
I would appreciate an email reply so that I can document our frequency
coordination process. I am also going to coordinate with Fred Barrett as
well.

Thank you for your consideration.

Linda Plesnik
