Subject: Fwd: Freq Coord

Doug - Here is the response from Joe Nuzzo at ABC on our final frequency selection. As you can see, he is OK with our coordination. As we discussed, the demos start next week, so we appreciate your willingness to finish processing the STA so quickly.

Let me know if you need anything for us to complete the process.

Thanks,
Barclay.

Subject: Flarion STA

Doug - We would like to add the mobile frequency 780.75 MHz to the Flarion's STA (0065-EX-ST-2002). We coordinated this as an alternate frequency to minimize any potential interference.

I will forward the supporting coordination emails.

Thank you for your help in this matter.

Here is Joe Nuzzo's email indicating that we will not experience any issues with our alternate frequency.

Subject: UHF STAs

This note is responsive to your request for frequency coordination in the Washington, DC, area for the temporary use of spectrum in the UHF TV broadcast band. Based on your representations that the FCC has authorized your proposed operation and that you have coordinated your proposed use with Mr. Joe Nuzzo of ABC, the only potential affected licensee in the Washington, DC, area identified by the FCC, WEBE Frequency Coordinators, Inc. has no objection to your proposed frequency use. This frequency coordination for operation in the Washington, DC, area expires at 12:00 a.m. on Tuesday, March 12, 2002, unless otherwise extended.
