Subject: Frequency Coordination
Importance: High

J. Rowland,

Flarion Technologies has filed for an STA with the FCC to demonstrate our broadband mobile IP technology in North Bethesda, MD scheduled for March 30 - April 2, 2004. The demo involves our COLT (Cell on Light Truck) which will be parked at 11301 Rockville Pike (White Flint Mall). The COLT operates on a 1.25 MHz Channel in the 747-762 MHz band with 20 watts ERP. The demo will utilize several mobiles operating on a paired channel in the 777-792 MHz band with 600 milliwatts ERP. The COLT antennas are mounted on a mast extendable to 40 feet above ground level.

The actual demo is scheduled for April 1. The COLT will arrive on March 30th for testing.

Please let me know if you have any concerns/questions regarding this demo. I would appreciate an email reply so I can document our frequency coordination process.

Thank you for your consideration.

Linda
