Howard,

Thanks for the information. We will not use the channels you mentioned.

Linda Plesnik

Subject: Flarion Experimental in San Diego

The SCFCC has seen the application for Flarion in San Diego on TV channel 60-62 & 65-67.

Be advised that channels 60, 62 and 63 are in use as well as channel 60, 65 & 66 are in use in Los Angeles with DTV channels that covers San Diego with great signals.
