Valley Broadcast

John:

Flarion Technologies has filed for an STA with the FCC to demonstrate our broadband mobile IP technology in Raymondville, TX scheduled for May 19 - June 14, 2004. The demo involves our base station which will be setup inside a building located at 480 South 6th Street and the antenna will be on top of the roof. It operates on a 1.25 MHz Channel in the 747-762 MHz band with 20 watts ERP. The demo will utilize several mobiles operating on a paired channel in the 777-792 MHz band with 600 milliwatts ERP.

Please let me know if you have any concerns/questions regarding this demo. I would appreciate an email or fax reply so I can document our frequency coordination process.

Thank you for your consideration.
