Re: Frequency Coordination

Jack,

Flarion Technologies has filed for an STA with the FCC to demonstrate our broadband mobile IP technology in Las Vegas scheduled for October 26-30. The demo involves our COLT (Cell on Light Truck) which will be parked at the Mandalay Bay Hotel. The COLT operates on a 1.25 MHz Channel in the 747-762 MHz band with 20 watts ERP. The demo will utilize several mobiles operating on a paired channel in the 777-792 MHz band with 600 milliwatts ERP.

The COLT antennas are mounted on a mast extendable to 40 feet above ground level.

The actual demo is scheduled for October 28-29. The COLT will arrive on October 26th for testing.

Please let me know if you have any concerns/questions regarding this demo. I would appreciate an email reply so I can document our frequency coordination process. My email address is plesnik@flarion.com and telephone number is 732-672-4010.

Thank you for your consideration.

Linda Plesnik
