Experimental Licensing System

Re: Responses to 47 CFR Part 459b
Regarding our request for Confidentiality
STA File # 0649-EX-ST-2004

To whom it may concern,

Fleetwood Enterprises Inc. is in the business of designing and manufacturing recreational vehicles and manufactured homes. We request that the basis for the license we have applied for and that the subject matter of what we are testing be held in the strictest confidence. Fleetwood is an OEM for large vehicles. Spread across the playing field there are several other companies throughout the U.S. that are engaged in exactly the same type of business.

These companies are in direct competition with Fleetwood. In order to protect any proprietary designs prior to releasing them to the general public we request the FCC to assist us in keeping what Fleetwood is doing confidential.

We understand that there is an extra fee required and that fee and the fee for the license application are in route to you now via U.S. mail in the form of a company check.

The release of information pertaining to what Fleetwood will be testing could severely damage our company's advantage in the marketplace.

If you have any questions or concerns please feel free to call me.

Thank you.

David A. Nyberg II BSEE

Senior Electronics Engineer
Fleetwood Ent. Inc. / WESTCO
