Subject: Request for Info - File # 0541-EX-CN-2018

Message:

As requested, I have added 2 attachments:

- * jpg which is a snapshot of the spreadsheet used to calculate EIRP. This spreadsheet came from the GPS repeater vendor: the cells highlighted in blue are the values that I entered based on the length of cable (attenuation), distance of repeater from exterior wall, and worst case repeater gain

- * pdf with my inline responses to points a through i in NTIA section 8.3.27
