Subject: Request for Info - File # 0296-EX-CM-2019

Message:

Thank you for reaching me out for modification question.

The modifications I submitted for this time were

- . Extension from 12month to 24month

- . Add test devices

 - Maker: Commsignia, Model: ITS-RS4 Unit: 4

 - Maker: Commsignia, Model: ITS-OB4 Unit: 6

- . Modification for exhibition

 - Add tech spec for devices on indoor/ outdoor test, such as 20MHz BW and 5.5m Antenna height

We are trying to use different vendor device for the same test and same region, so I submitted modification this time.

If this modification application is not appropriate for requesting extension date, then I would like to apply for the addition of test devices (Commsignia) and updated exhibition this time for the modification to expedite the process, and then I'll submit another application for renewal soon.

If you have any question, feel free to tell me any time

Regards,

Yun Ho Lee
