801 Gateway Blvd Suite 500
South San Francisco, CA 94080

Dear Sir/Madam,

We are applying to renewal of the experimental license as we plan to continue to offer to the mobile application developers in Silicon Valley the flexibility to come to our site and experiment, test and fine tune their applications on mobile phones running on Edge and 3G networks. This experimental network will serve as a test bed for new developments of mobile apps and in reducing time to market for the developers. I thank you in advance for granting this license.

Best,

Paul Galick
Information Systems Manager
