Declaration

I am General Manager of High Desert Broadcasting Company, Palmdale, California. I am a broadcast executive with over seventeen years experience in managing the operation of FM and AM broadcast facilities. I am familiar with the FCC's rules applying to broadcast radio stations.

From December 9, 2002 to December 20, 2002, I have listened to the broadcast content of the transmissions of Experimental Station WC2XZV (the "Station"). I have listened to these broadcast transmissions randomly during all hours of the day and night using conventional FM receivers.

The Station is broadcasting music and voice programming consisting of recorded "Trance Music", club music and announcements. It is broadcasting on a full time basis in an apparently unattended and automated manner. The Station identifies itself in voice announcements as "Frequency Radio". Its programming content is identical to that of a commercial radio broadcast station. Examples of this broadcast content are included in the attached aircheck recordings that I directed to be made of the Station's broadcasts on December 17, 2002.

The operator of the Station operates a web site at www.1047.fm to promote the commercial broadcast operations of the Station. Copies of the pages of the web site downloaded on December 18, 2002 are attached. The content of the web site is consistent with commercial operation of the Station rather than an experimental operation.

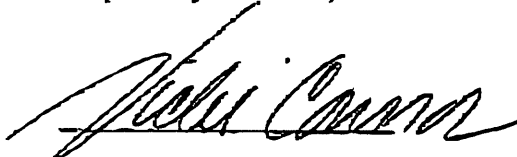

In my professional opinion, the Station is not operating as an experimental station in accordance with its experimental construction permit and license from the FCC, but rather as an unauthorized low power analog FM broadcast station.

The Station commenced operation in Palmdale before the November 27, 2002 initial issuance date of its experimental construction permit and license.

Signature of Declarant

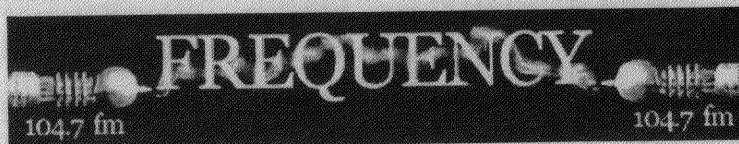

I hereby declare, under penalty of perjury, that the foregoing statements of fact are true and correct to my personal knowledge, except for those facts that are subject to the administrative notice of the FCC, and as to the latter types of fact, and as to my opinions expressed herein, I believe them to be true and correct.

Respectfully submitted,

A handwritten signature in cursive script, appearing to read "Vicki Connor", written over a horizontal line.

Vicki Connor

DJ Hazze

djhazze@aol.com

DJ Hazze is an outstanding rapper, break dancer and turntable wizard, who currently spins at many of LA's major clubs. At 15, Hazze became one of the first radio mix show jocks in the US at LA's legendary pioneer rap radio station KDAY. Hazze became the front man and leader for The Movement and recorded "Jump Everybody" (Sunshine Label), which went to No.1 on the billboard club chart. Hazze then released a solo single "Money"; this made history on LA's Power 106 rap attack show with Big Boy where it won two weeks straight with 99% of the votes. Hazze released other singles, such as "Ain't No Stopping Us Now" and he started his own record label, Soulphood Recordingz, releasing the single "Ib". Other recording labels include Motown, Arista, Tommy Boy & Polydor. Hazze is a member of the internationally renowned "Air Force Crew". Currently the lead vocalist of "Adrenaline" (Tommy Boy Silver Label), Hazze is known for the creation of several dances, his recognizable rapping style and the inventor of many signature scratches. His famous "Are you Ready?" has been played at every LA Lakers game. Hazze can now be heard on Frequency 104.7 FM. He can also be seen at special frequency appearances. Look for him soon!!!!

ENGINEERING STATEMENT

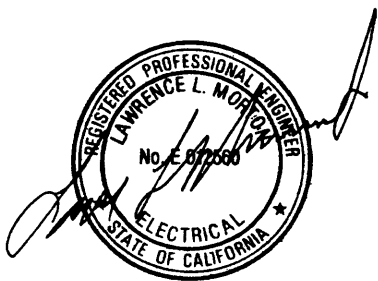

This engineering statement was prepared on behalf of High Desert Broadcasting LLC, with respect to the recent grant of experimental station, WC2XZV, authorized to Frequency Radio for operation in Antelope Valley, California, on 104.7 MHz. (FM Channel 284).

The station location was specified as MOBILE at Antelope Valley, within 50 kilometers of the geographic coordinates of North Latitude 34° 50' 00" and West Longitude 118° 12' 00". Measurements made by Mr. Charles R. Hastings, whose statement forms a part of this petition, indicate that the station is operational from a location at 343 East Palmdale Boulevard, Palmdale, with geographic coordinates of North Latitude 34° 34' 49" and West Longitude 118° 07' 24". Therefore, the Frequency Radio facility is operating from a site 28.9 kilometers from the mobile reference location.

However, the experimental license specifies an authorized power of 100 watts ERP, which is essentially an LP100 FM broadcast station. Such a facility is regulated normally by the provisions of 47 C.F.R. Part 73, Subpart G of the Commission's rules.

The table following Section 73.807(a)(1) requires an LP100 station to be located 67 kilometers from a second adjacent channel Class B FM broadcast station. But, the actual site in use is only 39.6 kilometers from Channel 282B station KBIG-FM, and 39.3 kilometers from Channel 286B station KMZT-FM, both licensed to Los Angeles. Thus, WC2XZV is 27.4 kilometers short-spaced to KBIG-FM and 27.7 kilometers short-spaced to KMZT-FM.

Figure 1 shows cartographically the location of the WC2XZV transmitter site in Palmdale. Also shown are circles with radii representing the minimum distance separation requirements applicable to an LP100 station operating on 104.7 MHz. Clearly, the WC2XZV facility does not comply with the distance separation requirements of Section 73.807.
