47800 Halyard Drive
Plymouth, MI 48170

January 24, 2011

FCC Office of Engineering and Technology Experimental Licensing
Form 442 File #: 0028-EX-PL-2011

This letter is to provide information per 47CFR0.459 (b) to justify confidentiality of an exhibit pertaining to the above license application. The exhibit is named "271000-5199_Outline_110124.pdf"

- (1) The information in the exhibit to be held confidential is the Transmitter Mode information
- (2) This exhibit was submitted as part of a form 442 license application
- (3) This information is technical property which includes proprietary information of a high degree
- (4) No actual 'service' but we certainly do not want our competition to see this information
- (5) Competitors could gain knowledge of how we are achieving a low cost radar
- (6) Selecting confidentiality on the FCC submission website
- (7) This information is not available to anyone outside of our company
- (8) The 24 month period of the license is the timing we'll be in production and we want no public disclosure during this time period
- (9) No further information

Hopefully this information is complete and sufficient to obtain the confidentiality. If not, please contact me because this is important.

Sincerely,

Chris Appelhans 1/24/2011
