Subject: Request for Info - File #0244-EX-PL-2008

Message:

1. You are the first amateur to request the 470-495 kHz band, while somewhere near 30 have requested 505-510 kHz. What are you doing that the rest of the amateur community isn't?
2. All other requests in the 505-515 kHz band have been limited to 505-510 kHz because of the aeronautical radionavigation allocation in 510-535 kHz. Can your request be limited to 505-510 kHz? If not, let me know and I will have to give you instructions on pre-coordination procedures with the FAA regional office.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of July 22, 2008 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
