

EXHIBIT 1 – REQUEST FOR POINT OF CONTACT MODIFICATION

GATR Technologies, Inc. (hereafter "GATR") hereby requests a post-grant modification of its FCC experimental Special Temporary Authority ("STA") License Call Sign WR9XAO to change the Point of Contact (POC) listed in the application and in the license's Special Conditions as the Stop Buzzer. The previous POC is no longer with the company, therefore it is imperative to update the Stop Buzzer POC.

The Stop Buzzer POC (for License Special Condition #4) should be changed as follows. Please note the inclusion of two e-mail addresses, which ensures better continuity of operations. If only one e-mail address is allowed, please use the latter (Satellite.Services@cubic.com).

John Burger at 256-382-1334 ext. 6021, mobile: 256-541-3572.
E-mails: **JBurger@gatr.com** and **Satellite.Services@cubic.com**.

The Application POC should be changed as follows (no changes to fields not specified):

Address:

Attention: John Burger / NGT Program
E-Mail Address: **JBurger@gatr.com**

Best Contact:

Last Name: Burger
First Name: John
Title: Principal Systems Engineer
Phone Number: 256-541-3572

GATR submits that a grant of this request for an STA modification is necessary and in the public interest because it will allow GATR to continue to support testing and development of the Next Generation Troposcatter (NGT) system to be used by the United States Marine Corp.¹ and support its order with the US Marine Corp., thus advancing national security efforts.

Please note that the STA is subject to a pending *pro forma* transfer of control application filed with the Commission. See File No. 0011-EX-TU-2021.

¹ Pursuant to Contract Number: M67854-19-R-2000.
