Subject: Request for Info - File #0180-EX-ML-2015

Message:

The FAA had the following comments:

The NTIA certification (SPS-19355/1) limits the flight operations at Grand Forks, ND for transiting between the following locations: Tiger MOA, Devils Lake MOA, R-5401, and Camp Grafton. These limitations were provided by DOD in response to issues with protection against unlicensed devices in the 5 GHz range.

Second, the radius of 325 kilometers is excessive and beyond the restricted flight operations mentioned.

Therefore, the FAA needs to have a better understanding of how they want to use this UAS platform in the NAS. Also, we would like to see the COA associated with these NG proposals.

Please address these issues.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of November 06, 2015 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
