

United States of America
FEDERAL COMMUNICATIONS COMMISSION
EXPERIMENTAL
RADIO STATION CONSTRUCTION PERMIT
AND LICENSE

EXPERIMENTAL	WN2XJE
(Nature of Service)	(Call Sign)
XC MO	0461-EX-CN-2021
(Class of Station)	(File Number)

NAME General Atomics Aeronautical Systems Inc

Subject to the provisions of the Communications Act of 1934, subsequent acts, and treaties, and all regulations heretofore or hereafter made by this Commission, and further subject to the conditions and requirements set forth in this license, the licensee hereof is hereby authorized to use and operate the radio transmitting facilities hereinafter described for radio communications in accordance with the program of experimentation described by the licensee in its application for license.

Operation: In accordance with Sec. 5.3(c) of the Commission's Rules

Station Locations

- (1) MOBILE: El Mirage, CA: Airborne Max Altitude 30,000 ft. AGL, within 45 km, centered around NL 34-37-30; WL 117-36-18

Frequency Information

MOBILE: El Mirage, CA: Airborne Max Altitude 30,000 ft. AGL, within 45 km, centered around NL 34-37-30; WL 117-36-18

Frequency	Station Class	Emission Designator	Authorized Power	Frequency Tolerance (+/-)
1435-1535 MHz	MO	14M6G1D	88 W (ERP)	0.00001 %
1615-1660.5 MHz	MO	14M6G1D	88 W (ERP)	0.00001 %
1668.4-2025 MHz	MO	14M6G1D	88 W (ERP)	0.00001 %

Special Conditions:

- (1) Operation in the 1850-1910 or 1930-1990 MHz band requires prior frequency coordination with 2 GHz microwave users and consent of PCS licensees to avoid interference.

This authorization effective September 14, 2023 and
will expire 3:00 A.M. EST February 01, 2024

FEDERAL
COMMUNICATIONS
COMMISSION

Special Conditions:

- (2) This frequency assignment in one of the bands 1435-1525, 2310-2320 and 2345-2390 MHz was coordinated prior to authorization with the Western Area Frequency Coordinator (WAFC) who also coordinated it, as appropriate, with the Aerospace and Flight Test Radio Coordinating Council. Use of this frequency under the authority of this assignment is subject to such further coordination with the WAFC as necessary to ensure compatibility with existing uses.
- (3) Licensee should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee of this authorization will be subject to immediate shut down.
- (4) The station identification requirements of Section 5.115 of the Commission's Rules are waived.
- (5) Operation is subject to prior coordination with the local Society of Broadcast Engineers, Inc. (SBE) frequency coordinator. Consult the list at <http://sbe.org/resources/frequency-coordination/> to find the appropriate coordinator.
- (6) The occupied bandwidth of the emission shall not extend beyond the band limits set forth above.
- (7) In the band 1435-1452 MHz, operators of aeronautical telemetry stations are encouraged to take all reasonable steps to ensure that the unwanted emissions power does not exceed -28 dBW/27 MHz in the band 1400-1427 MHz. Operators of aeronautical telemetry stations that do not meet this limit shall first attempt to operate in the band 1452-1525 MHz prior to operating in the band 1435-1452 MHz.
- (8) All operations are on a non-interference basis to authorized federal users and long-term use of the requested frequency bands may not be possible. General Atomics Aeronautical Systems Inc. should be aware that other stations may be licensed on these frequencies and if any interference occurs, the licensee will be subject to immediate shut down.
- (9) Airborne emissions in the 1390-1400 MHz frequency band are not permitted in accordance with Footnote US79.
- (10) All operations in the 1390-1395 MHz band shall ensure the unwanted emissions power does not exceed -60 dBW in the 27 MHz of the 1400-1427 MHz band for mobile stations as specified in Footnote NG338A.
- (11) The 1560-1590 MHz, 1660.5-1668.4 MHz, and 2025-2110 MHz bands shall be excluded from operation.
- (12) All operations in the 1435-1452 MHz band shall ensure the unwanted emissions power does not exceed -28 dBW in the 27 MHz of the 1400-1427 MHz band or shall first attempt to operate in the band 1452-1525 MHz prior to operating in the band 1435-1452 MHz band as specified in Footnote US338A.
- (13) Licensee must provide a stop buzzer POC.

Special Conditions:

- (14) Prior to commencing any operations at the 1525-1559 MHz and 1626.5-1660.5 MHz (E-S) frequency bands, experimental licensee must notify licensees of earth stations (Mobile Earth Stations (MESSs)). The notice must include the name and contact information of the stop buzzer personnel that will be available to cease operations in the event of reported interference. The notification should include the testing parameters (specific location(s), antenna gain(s), antenna height(s), antenna orientation, EIRP, EIRP density) and day and times of each test. Please notify the following licensees:

- (15) Prior to commencing any operations in the 1610 - 1618.725 MHz frequency band, experimental licensee must notify licensee of GUSA Licensee LLC. (Call sign E970381, S2115. Name: Mr. L. Barbee Ponder IV Phone Number: 985-335-1503 E-Mail: Barbee.Ponder@Globalstar.com). The notice must include the name and contact information of the stop buzzer personnel that will be available to cease operations in the event of reported interference. The notification should include the testing parameters (specific location(s), antenna gain(s), antenna height(s), antenna orientation, EIRP, EIRP density) and day and times of each test.
- (16) Prior to commencing any operations in the 1618.725- 1626.5 MHz frequency band, experimental licensee must notify licensee of Iridium Satellite LLC (Call sign E960132, E960622, POC/Satellite: S2110. Name: Ms Maureen C. McLaughlin, Phone Number: 703-287-7518, E-Mail: maureen.mclaughlin@iridium.co). The notice must include the name and contact information of the stop buzzer personnel that will be available to cease operations in the event of reported interference. The notification should include the testing parameters (specific location(s), antenna gain(s), antenna height(s), antenna orientation, EIRP, EIRP density) and day and times of each test.

Special Conditions:

- (17) Prior to commencing any operations in the 2000-2010 MHz frequency band, experimental licensee must notify licensee of GAMMA ACQUISITION L.L.C. (Call sign E060430, POC/Satellite: S2633. Name: Ms. Allison Minea, Phone Number: 202-293-1216, E-Mail: alison.minea@dish.com). The notice must include the name and contact information of the stop buzzer personnel that will be available to cease operations in the event of reported interference. The notification should include the testing parameters (specific location(s), antenna gain(s), antenna height(s), antenna orientation, EIRP, EIRP density) and day and times of each test.
- (18) Prior to commencing any operations in the 2010-2020 MHz frequency band, experimental licensee must notify licensee of DBSD Services Limited. (Call sign E070272, POC/Satellite: S2651. Name: Ms. Allison Minea, Phone Number: 202-293-1216, E-Mail: alison.minea@dish.com). The notice must include the name and contact information of the stop buzzer personnel that will be available to cease operations in the event of reported interference. The notification should include the testing parameters (specific location(s), antenna gain(s), antenna height(s), antenna orientation, EIRP, EIRP density) and day and times of each test.
- (19) Prior to commencing any operations in the 1910-1915 MHz and 1990-1995 MHz Bands, the applicant must obtain consent from T-Mobile, the licensee in this band.
- (20) Airborne operations are not permitted in 1390-1393 MHz and 1670-1675 MHz bands due to explicit airborne prohibition in FCC rules.
- (21) This authorization is issued for the express purpose of conducting experimental operations described in the related application and required by ADVANCED AIRCRAFT AFLCMC WA contract no. FA8694-21-F-0602. The use of this radio station in any other manner or for any other purpose will constitute a violation of the privileges herein authorized. Except as subsequently authorized by the Commission, this radio station shall not be operated after the expiration date of the contract designated in the related application and enumerated above.
- (22) Licensee should be aware that this authorization is issued on a non-interference and secondary basis. Licensee shall not cause interference to or claim protection from interference caused to it by any lawfully operating stations.
- (23) Licensee must successfully secure consents from the Advanced Wireless Service licensees in the proposed areas prior to accessing to the frequency range from 1695 MHz to 2110 MHz.
