Subject: Request for Info - File #0428-EX-PL-2011

Message:

I modified your application to represent the two spot frequencies selected by the FAA regional offices for each of the Austin, Ypsilanti and Bloomington sites. These spot frequencies replace the original 1350-1390 band requests. You also mentioned in your first response that you have an NGT for Tucson. Did the FAA regional office select a spot frequency or did they coordinate the whole band?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of November 18, 2011 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
