Subject: Request for Info - STA File #0858-EX-ST-2006

Message:

1. Seeing as your requested start date (March 26, 2007) has passed, and it will take at least two weeks to process after I have received the additional info I will be requesting in this email, do you still wish to pursue this application?
2. Antenna 1 has no power, bandwidth or emission data. Either enter the data on the filing site or explain.
3. Antenna 2 has a mobile radius of 25 km. Explain why a mobile antenna is needed and why a 25 km radius is necessary for antenna gain measurements.
4. Both antennas request transmitting frequencies far in excess of the Ka band uplink frequencies. Explain.
5. There is an antenna registration document with coordinates different than those entered in the application. Explain.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 27, 2007 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
