FCC Comment: Scottsdale, Arizona Frequency Request 2370-2390 MHz Emission:FXW EMS01 2ND SYMBOL=X Please provide details about the nature of the signal.

The Emission Designator for the 2370-2390 MHz signal was taken directly from the AFTRCC coordination letter.

The more appropriate designator would be F1W for Frequency Modulation (FM); using a single channel containing quantized or digital information without the use of a modulating sub-carrier; and a combination of the type of information being transmitted.

Let me know if you have additional comments or questions.

Regards,

Gil O. Estrella
