Subject: 0826-EX-CN-2018 pre-coordination data request

Message:

Dear Sir/Madam:

In order to proceed with our testing as soon as possible, GDMS has decided to delete the request for GPS L2 frequency in the current application. The application has already been amended. Please proceed with grant process.

A separate application will be submitted later specifically for use of GPS L2 after completion FAA pre-coordination.

Thank you,
Gil Estrella
