Subject: Request for Info - File #0709-EX-PL-2015

Message:

The Federal Communications Commission is finalizing rules for oceanographic radars. We are proposing to allow the use of the frequency band 4.438-4.488 MHz, among others. You have requested 4.438-4.65 MHz, which extends beyond the proposed band. Can you amend your application to match the proposed band? If not, eventually you will be forced to move all transmissions to the proposed band.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of December 04, 2015 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
