

06-22-2000

Gentlemen:

This morning I reviewed my Experimental License application, file number 0138-EX-PL-2000, and noted that on the equipment classification for both the transmitter and the Crystal Shifter (Frequency Source) that the radio buttons are un-checked.

Please amend the application to indicate that there is one of each unit, and that they ARE Experimental.

Thank you,

George B. Hutchison
