Doug:

My applogies for the mistakes you picked up on my application. I had great difficulty filling out this form and trying to make corrections. You will note that I had multiple entries for 840.25-844.75 because I ws unable to correct the entered data!

Yes, we can operate on the 920.25-924.75Mhz under the section you identified. Again I mis-entered this data and was unable to correct it.

It was my mistake in not entereing the Japanese frequencies of 952-954Mhz. Again I really struggled with trying to make changes to my e-filed Form 442.

PS: I never recieved your email via my regular email. I only found the email you sent to me on 7/18 by checking the status of my application!!!

Sorry for the mistakes but working with the e-file Form a442 application was very difficult and frustrating.

Regards,
Andy Grace
