RE: Applications for New Radio Station Authorization -
Experimental Radio Service (Other than Broadcast)

Dear Sir/Madam:

Enclosed are complete copies of the above-referenced applications, which were submitted to the Federal Communications Commission for processing on July 29, 1991. As I discussed today with a representative of your office, the Georgia Institute of Technology (GIT) is a state institution of higher education and, as a governmental entity, is exempt from any fee required for this application. I trust that this information should satisfactorily complete GIT's applications.

Please call me at (404) 894-4812 if you have any questions or need further information. Thank you for your assistance.

Sincerely,

E. Gail Gunnells
Attorney
