Subject: Assignment Control

Message:

Yes, there are five other related applications, which are identified in the chart below. The four earth station applications are deemed granted as of October 19, 2018 (one business day after filing) under Section 25.119(i) of the Commission's Rules. The Aircraft license assignment was similarly consented to by automatic grant on October 20, 2018. The experimental license assignment for Call Sign W12XZZ is the only one that remains "pending" (although the International Bureau applications nominally remain in process).

Applicant	File No.	License Type	FCC Bureau	Date Filed
MTN License Corp.	SES-ASG-20181018-03069	Earth Station	International	10/18/2018
MTN License Corp.	SES-ASG-20181018-03071	Earth Station	International	10/18/2018
MTN License Corp.	SES-ASG-INTR2018-09428	Earth Station	International	10/18/2018
Row 44 Inc.	SES-ASG-20181018-03070	Earth Station	International	10/18/2018
N44HQ, LLC	0008408275	Aircraft	Wireless	10/19/2018

These applications each seek authority for the pro forma assignment of licenses from entities controlled by Global Eagle Entertainment, Inc. (NASDAQ Ticker Symbol: ENT) ("Global Eagle"), a publicly traded company, to a newly created Global Eagle subsidiary, Global Eagle Telecom Licensing Subsidiary LLC. Each of the assignor entities, as well as the assignee, is a wholly-owned subsidiary of Global Eagle. Shares of Global Eagle continue to be held by various institutional and individual investors. The company is not controlled by any other entity.
