

Exhibit A

The map below shows the guideway alignment for the project. The UWB signal is intended to be isolated to this area. Each diamond represents a location where a fixed UWB unit will be installed. The system has 10 fixed UWB locations. Eight locations are poles. Two locations are on the side of a maintenance and storage facility building for the project. All units will be physically installed at the same height and configured with the same frequency and power settings:

Exhibit B

The pole drawing below shows the general pole layout as well as the height of the equipment. The UWB unit is intended to be installed at approximately 14 ft above the guideway.

Exhibit C

The following screenshot is of the FCC certification for the Qorvo module referenced herein.

TCB

GRANT OF EQUIPMENT AUTHORIZATION

TCB

Certification

Issued Under the Authority of the
Federal Communications Commission

By:

SGS North America, Inc.
620 Old Peachtree Road NW Suite 100
Suwanee, GA 30024

Application Dated: 04/29/2022

Qorvo International Pte. Ltd.
1 Changi Business Park Avenue 1, # 04-01
Singapore,
Singapore

Attention: Jason Keane Givens , General Counsel

NOT TRANSFERABLE

EQUIPMENT AUTHORIZATION is hereby issued to the named GRANTEE, and is
VALID ONLY for the equipment identified hereon for use under the Commission's
Rules and Regulations listed below.

FCC IDENTIFIER: 2A35D-DWM3001

Name of Grantee: Qorvo International Pte. Ltd.

Equipment Class: Ultra Wideband Transmitter

Notes: UWB Transceiver module

Modular Type: Single Modular

<u>Grant Notes</u>	<u>FCC Rule Parts</u>	<u>Frequency Range (MHZ)</u>	<u>Output Watts</u>	<u>Frequency Tolerance</u>	<u>Emission Designator</u>
CC	15F	6489.6 - 6489.6			
CC	15F	7987.2 - 7987.2			

Antennas mounted on outdoor structures such, as antennas mounted on the outside of a
building or on a telephone pole, or any fixed outdoors infrastructure are prohibited for use
with this device.

CC: This device is certified pursuant to two different Part 15 rules sections.

Exhibit D

The following images show the packaging of the fixed infrastructure UWB units. This is intended to show how Glydways is packaging the units for installation on the system. It should be noted that the units are enclosed in a plastic housing and are not directly exposed. In the second image, it can be seen that the Qorvo UWB modules are soldered directly onto the Glydways PCBA and are not modified in any way.
