Subject: Request for Info - File #0291-EX-PL-2008

---

Message:

1. The coordinates in application are for the 'center' position of the receive antenna/roof antenna. The different retransmit locations are listed on the attached Revised retransmit latitude/longitudes.
2. The Radiated Power Spreadsheets are all Effective Isotropic Radiated Power (passive antenna gain is 3dBi...although listed as 3dB and all other figures are obviously in dBm).
