Re: File No. 0095-EX-PL-2016 (Call Sign WI2XFG)
Supplement to Exhibit B

Dear Mr. Serafini:

Consistent with Section 5.77 of the Commission's Rules, 47 C.F.R. § 5.77, Google Inc. hereby supplements File No. 0095-EX-PL-2016 (Call Sign WI2XFG) and notifies the Commission that it intends to deploy [REDACTED] antennas in the course of its experimental operations. Aside from [REDACTED] antennas listed in Exhibit B¹ [REDACTED], all other technical information in Exhibit B will remain unchanged.

Google requests confidential treatment of the material underlined in this supplement for the length of the experiment and thereafter in order to protect its evolving business and technology strategies. The information Google seeks to keep confidential includes information regarding proprietary wireless applications, and therefore represents a trade secret as recognized by the Commission. Moreover, Google has limited the number of people involved in the tests/experiments, and required all third parties involved in the testing process to execute robust nondisclosure agreements. Consistent with 47 C.F.R. § 0.459(d)(l), Google requests notification if release of confidential information is requested pursuant to the Freedom of Information Act or otherwise.

Please contact me should you have any questions regarding this supplement.

Sincerely yours,

A handwritten signature in blue ink, appearing to read "Steph Selmer".

Stephanie Selmer
Associate Counsel
Google Inc.

¹ Exhibit B was submitted to the Commission on February 16, 2016, in support of Google's application for an Experimental Radio Service License. See File No. 0095-EX-PL-2016.
