Subject: Request for Info - STA File #0348-EX-ST-2014

Message:

Address the following issue posed by NTIA:

"The 406 - 420 MHz band is extremely congested and rather than list 200 frequencies that need to be notched, please find out from Gore Design as to how many frequencies are needed in this band to conduct the test."

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of May 09, 2014 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
