Subject: Request for Info - File # 0721-EX-CN-2026

---

Message:

Q1: Which attachments should be withheld from general public viewing? A: The applicant requests that the following attachments be withheld from general public viewing: - Antenna details, especially any deployment names, locations (coordinates) and elated information that identify deployment sites or operational locations - Document "Description of the Experiment" (Exhibit Project\_Description.pdf) Q2: Why should these attachments be withheld? A: These materials contain sensitive operational information that is not customarily made public. Public disclosure would reveal the precise locations of deployments and related operational details, which could create privacy and competitive concerns. Q3: Is the request letter itself confidential? A: No. This confidentiality request letter contains no confidential technical or location-specific information and may be placed in the public file. Q4: Under what authority is confidentiality requested? A: The applicant respectfully requests confidential treatment pursuant to 47 CFR Sections 0.457 and 0.459, including the showing required by Section 0.459(b). Q5: What is the final request? A: The applicant respectfully requests that the identified attachments be granted confidential treatment and withheld from public inspection. Sincerely, Severin Stähly Co-founder Gravimon Ltd. severin.staehly@gravimon.com
