January 05, 1995

Dear Frank,

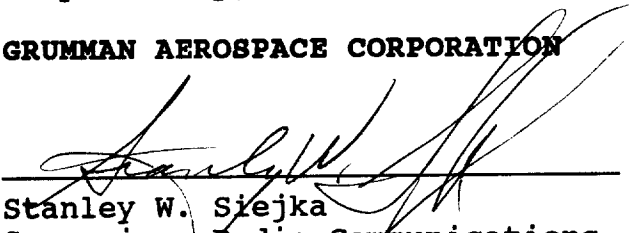

We request another **Special Temporary Authorization** for radio station **KS2DXDR** (File # S-1448-EX-93). The last authorization expired on October 28, 1994; I was notified the last week in December 1994 by the new cognizant engineer that testing is scheduled to continue into the first half of 1995.

All parameters remain the same as in the previous authorization.

Please fax me the latest authorization when available.

Respectfully,
