Re Request for Extension of Special Temporary Authority

Dear Mr. Morgan:

This is a request for an extension of a Special Temporary Authority license granted 28 June 1996, Call Sign KS2XAG, for experimental operation of existing equipment in a two-way satellite link, in accordance with the Code of Federal Regulations, Title 47, Part 5. It allows continued operation of equipment while waiting for granting of a full experimental license (FCC file number 5320 EXPL96, requested on 15 May 1996).

The experimental work, using offered time on a Spacenet satellite with transmission over up and down links between several USAT terminals, supports research and development of modern communication systems, signals (waveforms) and techniques, in particular DAMA networks in a spread spectrum system. The waveforms are direct spread spectrum transmission of pseudorandom data sequences for performance measurement, and are described more fully in the license application.

A check in the amount of forty-five dollars (\$45.00) to cover the cost of the filing fee is included with this transmittal.

If you have any questions, please call Suzanne Carmel, Manager, Regulatory affairs, GTE Washington, D.C. Office, at 202-463-5295.

Very truly yours,

Kevin T. Gammons
Assistant Secretary
