REQUEST FOR SPACE SEGMENT TO BE USED WITH LAND-BASED SES TERMINALS

The Federal Communications Commission (FCC) requires Comsat World Systems Division to obtain authorization for providing space segment to be used in providing services via land-based ship earth station terminals. The FCC will authorize Comsat to provide space segment for such services only under certain conditions. The FCC will approve temporary limited use of such stations only where no other means of communications are available such as in the case of emergency situations resulting from disasters or where these terminals are the only adequate means of meeting urgent communications requirements in remote locations. In order to enable us to obtain FCC authorization, the following information is required.

Applicant: GTE GOVERNMENT SYSTEMS

Brief description of applicant's business: GTE GOVERNMENT SYSTEMS IS A LEADING SUPPLIER OF MILITARY COMMUNICATIONS EQUIPMENT TO ARMS OF THE U.S. DEPARTMENT OF DEFENSE

Ultimate user of terminal: GTE GOVERNMENT SYSTEMS

Who will operate the terminal?: AUTHORIZED GTE GOVERNMENT EMPLOYEES.

Where will the terminal be operated? GTE GOVERNMENT SYSTEMS IN MOUNTAIN VIEW, CA. AND OTHER GTE FACILITIES ACROSS THE UNITED STATES

Explain the services for which the terminal will be used and why no other means of communications are available:

THE PURCHASED UNIT WILL BE USED IN SUPPORT OF VARIOUS U.S. GOVERNMENT CONTRACTS AND GTE IR & D. THE UNIT WILL BE USED TO TEST, EVALUATE, AND DEMONSTRATE CERTAIN MOBILE COMMUNICATION CONCEPTS. THE UNIT WOULD BE EVALUATED AS A MEANS OF BACKUP COMMUNICATIONS FOR EMERGENCY USE.

What is the required timeframe for use of the terminal for this service? 2 years

Have you obtained authorization from the FCC (commercial applicants) or NTIA (USG applicants) for ground segment use of the terminal? Please provide authorization date or date the authorization request was submitted. Submitted 19 December 1997

\*\*(NOTE) - Customers are to be informed that they are responsible for filing with the FCC' Office of Engineering Technology an experimental license form (Form 442) which is the procedure the FCC follows for these TAs. This applies to all Land-Based terminals for domestic (U.S.) only.
