Subject: Request for Info - STA File #0676-EX-ST-2011

Message:

Provide a more detailed exhibit explaining why an STA is necessary. "Need for TV white space deployment" sounds more like a commercial rollout and not an experiment. Your explanation needs to conform to one of the objectives in 47CFR5.3.

Also note that these devices are not permitted in the 608-614 MHz band and that transmitter output power is limited to 1 Watt (although ERP is allowed up to 4 W, as listed in your application). Will you be selecting channels in accordance with 47CFR15.711? Explain how you will select channels.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of November 03, 2011 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
