

HARRIS CANADA, Inc.

Renewal of experimental license **WA2XIH**

File number: **0097-EX-RR-2002**

Correspondence reference number: **2048**

Harris Canada, Inc. is a leading manufacturer of cellular base stations. As such, Harris is continuing to find new ways to improve its products and respond to public needs.

Over the last few years, Harris Canada, Inc. uses this experimental license WA2XIH to develop and modify its Radio Local Loop technology ("ROLL"). Harris Canada, Inc. requests to renew this license to continue developing ROLL by testing the system in actual operations at different locations and conditions, and demonstrate the latest features to the public at various trade shows all over the country.

If additional information is required, please contact Edward W. Hummers, Jr., at 202-457-7145, or via email address ehummers@hklaw.com.
