Subject: Additional Information Request

Message:

The first three locations in your new experimental license request are already approved under Call Sign WK2XCR FLN 0729-EX-CN-2018. I shall delete the first three, but you still have to provide a narrative for this experiment.

The other option is to dismiss this new license request and file a modification to the existing license under call sign WK2XCR and add the four new locations that you're requesting. But you still have to upload an exhibit that describes your modification request in detail.

Let me know how you want to proceed and provide the appropriate document.

For your future reference you can file a mod to the existing license if you want to add location.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of June 14, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
